I am a first-year M.Sc. student in Experimental Psychology at İzmir University of Economics, and I volunteer as a research assistant at the SMART Lab. In this dynamic role, I have been involved in a variety of research projects, acquiring practical expertise in experimental design and data analysis. The opportunity to collaborate with experienced researchers has been invaluable, offering me insights that go beyond academic settings. I am excited about the opportunities for ongoing learning and growth provided by this experience, which will prepare me for a successful career in experimental psychology.
